HYMNISTS.—These exciting scenes are becoming altogether too common in our city. Scarcely a day passes that the city is not startled from its slumber by the wild rushing of a span of horses, with a vehicle attached, through the streets. Men who leave their teams unfettered, and thus allow them to place in jeopardy the lives and the limbs of our citizens, should be made to suffer, pecuniarily, for their carelessness.

PERSONAL.—Charles Butler, author of the "Butter Bill" by which the Wash and Erie Canal was transferred to the bondholders, is now Trustee on behalf of the bondholders, in the city. Also Richard Raleigh State Trustee, Jesse L. Williams Engineer, Hon. Mr. Edgerton, connected with the Canal, and Judge McCulloch, President of the Bank of the State.

RECRUITS.—The train on the Evansville and Crawfordville Road being detained by a slight accident, on Saturday evening, failed to make connection, by which some thirty odd recruits for the 51st, (Col. Streight's Regiment), now in camp and under marching orders at Indianapolis.

These recruits are mostly from Sullivan county and were in charge of Capt. Clark Willis of Bruceville. Capt. Willis is going into the war with his whole heart and will, we are sure, make an efficient and popular officer.

Military.—The members of Capt. Wiles' and Kinley's companies, in the 36th regiment, recently sent home by their families in Henry county \$3,500, and Capt. Woodward's company about \$1,500.

The boys of company B, 36th Regiment of Indiana Volunteers have sent home near a thousand dollars to their relatives in Muscogee and vicinity.

Liam, Col. Foster, of the 13th regiment, is at home. The Indianapolis Journal says: He looks considerably changed, and bears evidence of having seen hard service. He says the entire regiment is anxious to get away from Western Virginia—they are tired of that good where they are and think it good policy for the Government to move them to some position where they can effect something. Capt. Howe, of the regular artillery, says the 13th regiment resemble regulars more closely than any volunteers he ever saw.

The Peru Republican says: "We are gratified to learn that Kidd's artillery company is so far recruited that it will go into camp at Indianapolis next week. We learn from Capt. Kidd, who was at the capital on Tuesday, that his company has been assigned to the position of 1st Artillery 6th Regiment Indiana Volunteers, Major Fry's 2nd Battalion. The battery is to be composed of two 12-pound howitzers, two 6-pound rifle cannon, and two 6-pound smooth bore—all brass, and now ready at the arsenal. His company is to be provided with the Sibley tents and a stove for each."

The Lafayette Courier says: "Col. Fitch's regiment passed through the city this afternoon en route for Kentucky. The 10th regiment, with Capt. Cox's battery, turned out in force to give them a welcome, and upon the arrival of the train at the Valley depot the loud-mouthed cannon greeted them with a Federal salute, and the 4th filled up the intervals with the rattle of musketry, firing by companies with remarkable precision. After a brief detention at Indianapolis to complete equipments, the regiment will push forward to Kentucky."

The regiment arrived in Indianapolis on Thursday night. Col. Fitch is getting everything ready for a "forward movement" to Kentucky, which will be made very shortly."

The 19th Regiment, Col. Ray, at Jeffersonville, crossed the Ohio river the other day and proceeded through Louisville for the camps along the line of the Louisville Nashville Railroad. Several other regiments passed through Louisville at the same time. The army for the "forward movement" on Nashville is swelling into magnificent proportions.

The 7th Indiana Regiment, Col. Gavin, left about 100 men in the hospital at Elkhart when they moved to Green Springs. They also left about 100 along the road from the camp to the railroad station, who were unable to make the march, it being seventy five miles through mud almost knee deep.

On the morning of the 25th the troops on board the St. Thomas folks by dropping into the harbor and reporting that on a dark and squally night, the Sumter had slipped through the fingers of the Dacotha and Iroquois, and gone, no one knew where.

Sunday Night Dispatches

Later and Highly Important from Europe—Arrival of the Europa.

HALFAY, Dec. 15.—The Royal Mail steamer Europa has arrived at this point with highly important intelligence.

She was detained at Queenstown till the 2nd, by order of the government. She immediately left for London, and will be at the latter place on the 10th inst.

The Observer also says that a special Messenger of the Foreign Office has been ordered to carry to Washington the demands of the British Government for Lord Lyons, and will proceed to-day by packet from Queenstown.

The public will be satisfied to know that these demands are for an apology and to insist on those who were violently and illegally torn from their sacred asylum.

The Observer adds there is no reason why the demands should not be met. The quarter deck of the British Admiral at New York or Washington itself, in the face of some ten or twelve men-of-war, whose presence in the Potomac would render the blustering Cabinet at Washington as helpless as the Trent before the guns and flashes of the San Jacinto.

It is no fault of ours if it should come even to this.

The arrangements for increasing the force in Canada are not yet complete, but in a very few hours, everything will be settled. In the meantime a large ship, the Melbourne, has been taken up and is now being loaded with Armstrong guns, some 80,000 Enfield rifles, ammunition, and other stores at Valparaiso.

It is not impossible that this vessel will be escorted by one or two ships of war. The rifles are intended for the Canadian military, and a strong reinforcement of field artillery will be despatched forthwith.

The Times' city article of the 30th says the position of the Federal States of America is almost identical in every commercial point with that which was occupied, twenty years ago by Russia before the Crimean war. Russia had a hostile tariff while we looked to her for a large portion of our general supply of breadstuffs. But there is this peculiarity in our present case, that the commercial blockade of the Southern ports at once, setting free our industry from the anxiety of a cotton famine and giving sure prosperity to Lancashire during the winter. At the same time we shall open our ports to 8,000,000 of the Confederate States, who desire nothing better than to be our customers.

At the privy council on Saturday, an order was issued prohibiting the export from the United Kingdom or carrying gunpowder, vestre, nitrate of soda, and saltpetre. The Times has no hope that the Federal Government will comply with the demands of England.

The morning Star declares that the state of Louisiana, having been sent to the Confederate commissioners, or to take leave of Washington, was premature, and so exaggerated as to be virtually untrue.

The Liverpool Courier believes that the Warrior has been ordered to annihilate the secessionist of the Government.
